

What comes to mind when most Christians hear the word “Evangelism”? Fear? Guilt? Horror! Although sharing the gospel is a privilege, even the most committed believers often hide their faith.

The Lord has taught me through years of experience how to share my faith naturally. My desire is to help believers overcome their fear of evangelism through progressive evangelism training.

Does your church need help pursuing the Great Commission? Here are some ways I can help your members discover the joy of sharing God’s love:

Teaching

2. **Message:** The Bad News and Good News; Sermons of Jesus; Sermons of the apostles

5 Levels of Training

1. **Beginning with Tracts:** Handing out tracts is the easiest way to help Christians *start* sharing their faith. It is especially easy if you have creative tracts that sinners seldom refuse, like the One Million Dollar Bill tract! Learn creative ways to distribute tracts and make evangelism a lifestyle.
2. **Starting Conversations:** Before mastering a gospel message, first learn how to *comfortably* start conversations with strangers. Our [Conversation Starters](#) will help you easily start conversations and guide you in sharing key concepts with the unsaved.
3. **Sharing Testimonies:** Take your witness a step further by sharing your personal “God stories” with others. Learn to openly speak of God’s goodness by sharing brief testimonies of how He has blessed you. Give the ultimate testimony...share your personal journey of how you came to saving faith.
4. **Sharing the Gospel:** Our tools help you share the gospel naturally *without rote memorization*. [One Verse Witness](#) guides you in sharing a simple gospel message with an illustrated salvation verse. [Conviction Cards](#) use the 10 Commandments to reveal to sinners their guilt and need for salvation. More indepth presentations can be given using our [Gospel Cards](#) or [Power Point Presentations](#).
5. **Answering Questions:** Conquer the greatest fear in evangelism...not knowing how to answer someone’s questions. Learn answers to the most common questions, as well as 5 strategies for answering any question you’re asked.
